Colorplan

Colorplan is the highest quality coloured paper and card available. It is an extremely versatile paper which lends itself to many applications, only your imagination limits its use. Its pure quality and crisp feel transforms the end result from being merely good to simply stunning.

A3 sheets are available on request. Selected colours can be ordered in 700gsm - an extremely solid and rigid card which is almost 1mm thick - WOW!

Envelopes are available in all colours, made from the 135gsm heavy paper weight

Blank pre-creased greeting cards are also available in all colours and three sizes. Three fold aperture cards are available in selected colours.

Colorplan is made in the UK, is fully recyclable and manufactured in environmentally approved mills.

* Acid Free

No piece of paper can be folded over more than 7 times.
