

## Pure Sensations

A sumptuous collection of papers transfixing the eye, rich to the touch.

**Treasury** The visual attraction of Real Gold and White Gold is simply stunning, they have an unmatched radiance and a uniqueness that depicts true beauty and value.

**The Soft Touch** colours on the other hand are a master of deception. Your eyes will see paper, but your fingertips will feel something else - perhaps a feel of rubber? - why not find out for yourself. The paper's special secret coating really does have to be felt to be believed.

**Bier** paper contains beer! Produced on the oldest paper making machine in Europe hidden away in the Bavarian Alps, the sediment of hops and yeast left over from the beer-making process is used to make this amazing brew. Bier's subtle flecked texture, rich colour and unique heritage make it a very special paper indeed.

Our **Thai Tissue** colours appeal to the sense of serenity. A soft and kind collection that evokes thoughts of a gentler way of life.

Thai Tissue is only available in mixed packs and uniquely comes in both A4 and A2 sizes (500x700m) lending itself to special wrapping projects amongst other uses.
