New from Paper2go, luxurious self-print wedding stationery. Produced from premium quality extra thick card with a style and feel chosen to be a perfect match for your special day. All the designs are gold or silver foil blocked on the front using a custom-engraved copper plate. The end result – wedding stationery identical or even better quality than a professionally printed package but at a fraction of the cost.

The three styles of card are firstly 'Traditional' which imparts a time-honoured style and quality that perfectly matches your beautiful wedding day. Secondly we have 'Modern', textured papers in white or cream with a subtle and interesting typeface to make your wedding that bit more unique. Finally and ultimately, we have 'Luxury', produced from stunning papers with an unmatched radiance that depicts true beauty and style that is impossible to recreate in this brochure.

You are just three steps away from producing your own complete wedding stationery package.

- 1 Choose your matching packs from the options on the following page.*
- 2 Print your own insert on your home computer on the paper supplied.*
- 3 Fix the insert into the card with double-sided tape, place into the matching envelope and you are done!*

Luxury Wedding Pack

You could go one step further, try embellishing the card with 'toppers' available from most craft shops, or why not fix the insert paper with ribbon matched to the colour theme of your wedding. Your wedding stationery will be both beautiful and unique.
